

Event Fact Sheet

Crystal Maze

Duration:	60 to 150 minutes
Guest Numbers:	10 - 75
Requirements:	Minimum dimensions of 33ft x 13ft and a ceiling height of 8½ft
Learning Outcomes:	<ul style="list-style-type: none">✓ Time Management✓ Problem Solving✓ Communication✓ Teamwork

Crystal Maze is an event of problem solving and teamwork. Created to demonstrate the benefits of communication and cooperation between individuals and teams, Crystal Maze tests time management skills and emphasizes the benefits of collective input and the power of teamwork.

Underlining the importance placed on groups, working both as separate units and as one body, Crystal Maze literally builds to a grand finale where individual elements are brought together and the teams unite to achieve their common goal.

The challenge consists of teams completing mental/physical challenges in each four themed zones: Aztec, Industrial, Futuristic and Medieval. Success in each challenge earns the team crystals, which they exchange for cryptic instructions and machine parts. Teams endeavour to correctly build their section of the mysterious 'Crystal Maze' machine.

As the teams interpret their briefs, they will realise that they must cooperate with - rather than compete with - other teams in building a module that will in turn interconnect with that of the other teams to create 'The Crystal Maze'. Only when each section is correctly assembled and linked together can the machine be tested...and the teams achieve success!
